MAD'S M.V.T.B.A. AWARDS 2

We present some awards to baseball players which ought to burn up the guys who sit around the Hot Stove League all winter.

THE END OF COMICS 6

Here's MAD's version of what the final installments of famous comic strips would be. In some cases, they'd be welcome!

FUTURE MAGAZINE MERGERS 10

If periodical publishers follow this merger trend, you'll have the Time of your Life reading these new Mad-Look magazines.

HOLLYWOOD DIRECTORS' ADS 16

Top Hollywood directors invade Madison Avenue to bring new approaches to ads, thus earning new re-approaches from consumers.

HALLOWEEN TREATMENT 24

We advise all property-owners on how to contend with Halloween pranksters. Mainly, MAD advises them to sell their property!

DANNY KAYE 32

Danny Kaye returns with a "Double Feature" which we doubt he'll be able to sit through, once he sees what MAD's done with it.

COMING MUSICALS 34

With Broadway musicals based on almost anything written these days, we're just waiting for Rodgers and Hammerstein to call.

WOODLORE 44

An article which cautions hunters of the dangers in the woods on the theory that they can't be very cautious if they buy MAD.

MAD'S M.V.T.B.A. (MOST VALUABLE TELEVISION)

NATIONAL ANTHEM ACTING AWARD

To Harry Jingo, of St. Louis, for the best performance by a player during the playing of the Star Spangled Banner before the game on July 28th, when he shuffled his feet 44 times (shattering the old mark of 38), kicked the ground 27 times (4 better than the old record), and switched his gum from one side of his mouth to the other 19 times, when he wasn't even chewing gum at the time.

HOME-PLATE-WARMUP ACTING AWARD

To Babe Brando, of Detroit, for his great performance in the 4th inning of a game on April 29th, when he carried 8 bats to the plate and swung them all over his head with one hand (shattering the previous record of 6), rapped his spikes with the bat 23 times (breaking the old mark of 19), gritted his teeth at the pitcher for a full 16 seconds, and spit 7 times (toward the television cameras).

SLIDING-AND-HUSTLING ACTING AWARD

To Enos "Country" Schwack, of Kansas City, for running at full speed and sliding dramatically on his stomach an average of 73 times a day all season, for always sliding with his face to the cameras, and particularly for his outstanding achievement on July 16th when he slid 50 feet into home plate (ripping off his uniform shirt and $\frac{1}{3}$ of his chest) while delivering his team line-up to the ump.

PITCHER'S ACTING AWARD

To "School Boy" Drake, of Los Angeles, for his sterling performance on August 8th after being knocked out of the box, when he showed his great mound-versatility by flinging his glove to the ground with his right hand and his cap to the ground with his left at the same time, and then walking 485 feet from the pitcher's box to the clubhouse without lifting his eyes from the ground even once.

would now like to take this opportunity to present a series of our own special awards to some of TV's most talented actors . . . mainly **THE BASEBALL MEN!**

AWARDS

POST-STRIKEOUT ACTING AWARD

To Hank Ozone, of Cleveland, for his superlative performance in the 3rd inning of a game on August 5th, when he twisted himself into a perfect Square Knot with his last swing (out-doing Lefty Noble's record-shattering Granny Knot of 1951), angrily splintered his bat into 137 pieces on home plate (19 pieces better than the old record), and kicked the water cooler out of commission in only 1 boot.

COACH BOX ACTING AWARD

To Cincinnati third base coach Jake "Splatt" Jacobs for his performance on August 7th during which he whistled, clapped, and tugged his cap whenever he was on camera, and especially for his rump-slapping marksmanship on that day when, of the eight home-run-hitters who rounded third, Splatt caught seven squarely on the backside with an encouraging slap, the last being a near-miss on the head.

UMPIRE-BAITING ACTING AWARD

To manager Leo "Lippy" Screech of Boston, for his great performance on July 7th during the 5th inning, when he charged from the dugout to the umpire in 3½ seconds, pressed his face so close to the ump's mouth that he lost the tip of his nose, screamed, spit, and jumped up and down for nearly 2 hours in one of baseball's greatest arguments, and then found out his man had been called safe!

IMITATIONS

If I can be serious in writing to perhaps the funniest magazine in America, I should like to congratulate you for the magnificent job issue after issue. "How to Put Out an Imitation of MAD" was the most biting satire ever printed in your magazine.

Alexander W. Wilde
Wauwatosa, Wisc.

I think your article "How to Put Out an Imitation of MAD" was absolutely great. It certainly exposed the cheap imitations to all us MAD fans. I propose that MAD readers everywhere act fast to stop these magazines. We must (1) refuse to purchase them, (2) send letters telling what we think of them, and (3) bomb the MAD offices where the whole mess started. With no more MAD, the other magazines wouldn't have anything to imitate!

Ron Bergman

CIRCUS

I thought your article "The New Rotten Circus" in the September issue (No. 42) was only too true. It's a crime the way the old atmosphere has deteriorated.

John A. Ringling
Palm Springs, Fla.
(by Gene Herson)

STRANGELY

The game of polo is played in eight 7½ minute "Chukkers," not four "Quarters" as was erroneously stated in Mr. Kovacs' "Strangely Believe It" in the September issue. "Quarters" are what fools like me throw away when we buy magazines published by clods like you who don't even know how to play polo!

Jon Kwitny
Indianapolis, Ind.

MAD PRIMER

I read with great interest your satirical article entitled "The MAD Primer." As a school principal, I have for many years advocated a complete revision of the elementary school text books in use today. While my ideas would not go nearly as far as yours, I found your satire excellent, and am keeping a copy to show my staff, who I know will also enjoy it.

We wish to report that the "Alfred E. Neuman Racing Club" was present at the Riverside Speedway on May 31, 1958. Frank Smith, driver of car 34, came from 16th to 4th position in 25 laps. GREAT ARTICLE

We have just read the September issue of MAD (No. 41) and were doubled up in laughter at the article on page 5 entitled: "Statement Required by the Act of August 24, 1912, as Amended by the Acts of March 3, 1933, and July 2, 1946 (Title 39, United States Code, Section 233) Showing the Ownership, Management, and Circulation of MAD..." This is without a doubt your best article to date.

Where there's a man...

*Rome wasn't built in a day; it just looks that way.

WHITE ROCK . . . makes good foods taste better!

In the beginning, man purchased meats, fruits, vegetables, and all the other things he needed to live by means of

PUSHCARTS

But man is creative and must progress, so he gathered up some "Pushcarts" under one roof, and called it a "Store."

Then man progressed even further. He gathered up some of these "Stores" under one roof, and called it a "Market."

And still man wasn't satisfied. So he gathered up some of these "Markets" under one big roof, equipped the monster with glass-and-chrome, scientifically-calculated displays,

electric-eye door-openers, conveyor belts, cash registers that add, divide and subtract your money, surrounded the place with a parking lot, and called it a "Super Market."

So that, today, through progress and imagination, man still buys all the things he needs to live by means of

PUSHCARTS

But man's creative genius and desire to progress won't stop there. "Pushcarts" will develop into "Cyclecarts" . . .

And eventually, man's inventiveness will finally develop the ultimate in shopping convenience . . . the "Motorcart."

Their aisles will stretch for miles, like super highways, signals, speed limits, police patrol units, and all the

**Don't cross your bridges if you can beat the toll by going around.

And then... it will begin all over again. For if you will look closely at this vast monument to man's progress, you will see, here and there along the miles of aisles, creative guys popping up with independent

There are three methods of taking care of trick-or-treat pranksters on Halloween. The first method is to give them what they want, which is cowardly. The second method is

THE MAD TREASURY OF UNKNOWN POETRY

HIYA, WATHA

by William Worthless Shortfellow

In the bar called Gitchy Goomy
Where they serve the giggle water,
Way up town on Eighty-second,
Near the Restaurant Nokomis,
Up by Feldman's Bagel Fact'ry,
There the shoe clerk, Melvin Watha,
Guzzles cola laced with bourbon;
Gets ideas then of much grandeur,
Thinks he owns a pipestone quarry;
Says he's Wally Cox, the mighty;
Pounds the bar and giggles silly,
Keeps on boozing, gets more sullen,
Doesn't pay the least attention
When the far more cheery drunkards
Call out gaily, "Hiya, Watha!"
Downs a shot and then another;
Laps it up till eyes get bleary;
Falls across the bar unconscious.

I WANDERED LONELY AS A CLOD

by William Wordswords

I wandered lonely as a clod
Just picking up old rags and bottles,
When onward on my way I plod,
I saw a host of axolotls;
Beside the lake, beneath the trees,
A sight to make a man's blood freeze.

Some had handles, some were plain;
They came in blue, red, pink, and green.
A few were orange in the main;
The damndest sight I've ever seen.
The females gave a sprightly glance;
The male ones all wore knee-length pants.

Now oft, when on the couch I lie,
The doctor asks me what I see.
They flash upon my inward eye
And make me laugh in fiendish glee.
I find my solace then in bottles,
And I forget them axolotls.

GARBAGE FEVER

by John Leftfield

I must go down to the city dump,
to the lonely dump and the sky,
And all I ask is a garbage truck
and a star to steer her by;
And the coffee grounds and the apple peels
and the rancid fat shaking,
And the grey smoke from the burning trash
and the grey dawn breaking.

I must go down to the city dump,
for the call of an old shoe fried
Is a wild call and a clear call
that cannot be denied;
And all I ask is a windless day
when the acrid smoke hides the sun,
And the garbage burns in a greasy mess,
and a thousand rats all run.

I must go down to the city dump,
to the vagrant gipsy life,
To a mountainous pile of orange peels,
far away from the city strife;
And all I ask is a merry yarn
from a laughing dump prospector,
And the quiet sleep and the sweet dream
of the happy trash collector.

IRVING KAHN

In Levittown did Irving Kahn
A lovely Cape Cod house decree:
Where Alf, the sacred Neuman, dwelt,
And Nick Fazool and Olaf Svelt,
And even Sean McGee.

There, fifty feet of crab grass ground
With picket fence were girdled round.
A place for little Milt to play,
A port for Irving's Chevrolet.

But just one thing is not the very best:
You can't tell Irving's place from all the rest!

ON WRITING POETRY THAT ISN'T REALLY POETRY

by Ogden Knish

I've often thought my poems would be neater
If, in addition to rhyming, they had some trace of rhythm;
what I mean to say is meter.
But when you're writing for the New Yorker and magazines of
that ilk which are read by the pseudo sophisticates,
they want you to do it cutely,
And if you send them good old fashioned poetry, they reject it
absolutely.

Body Dissolved By Chemistry Professor

AARDVARK, WISC. (DSC) — The fact-finding committee investigating the cost of experimental Guinea pigs at Aardvark University was disbanded today by Professor Carl Umlaut of the Chemistry Department. The

body consisted of four faculty members and three students. "I saw no reason to continue the study," explained Umlaut. "We've been getting along fine using freshmen for our laboratory."

EXPOSED WIRE SHOCKS LINEMAN

WINSTON-SALEM, N. C.—Hank Shlubb, right guard for the Winston-Salem Filters pro football team, was shocked today when he walked into his house and discovered an opened telegram laying at his feet. The wire announced that Shlubb had been traded to Biloxi. "Well," said the burly lineman, "that's the way the ball bounces!"

EAST FRINGE, N.H. (TASS)—Three thousand disappointed baseball fans walked out of Cowznofsky Field last night after East Fringe shortstop, Felix Dilk, last man to bat, received a called third strike. There were three men on base at the time.

Highlight of the game, which was won by West Fringe, 1-0, was a free-for-all riot in the stands during the second inning when a foul ball

DISGUSTED MATE PRESSES SUIT: ASKS FOR SPEEDY SEPARATION

GLUGG CITY, MASS. (COD)—Fred Mildew will leave the Merchant Marine after 30 years' service this week. Mildew made his decision after being reduced from first to second mate for repeated seasickness.

Interviewed while ironing out his new three-button civilian

suit, Mildew told reporters he was finished with sea life and would ask the Merchant Marine for immediate separation from service.

"This problem has come up time and time again," scowled Mildew, "and I'm just disgusted about the whole thing."

MOHAIR, ALA. (w-mw) Alfred E. Neuman, an employee of MAD Magazine, astounded a crowd of 2000 when he shot an 83 in the Mohair Open yesterday. Neuman's nine-hole score was the worst ever recorded in the tournament.

Meanwhile, tournament officials began looking for Dexter Abercrombie, who had reported earlier that his No. 7 iron was missing. It was discovered that Neuman, who owns no golf equipment whatsoever, had borrowed the club to use in the tournament without telling Abercrombie.

DANNY KAYE DEPT. PART I

In his travels around the world for the United Nations Childrens Fund (UNICEF), for which he serves as Ambassador-at-Large (with Diplomatic Portfolio), Danny Kaye has learned as much about children as any adult has a right to know. And he has found in a col-

lection of songs by Milton Schafer, many of the attitudes and most of the amusing foibles of children he has come to know in all lands. Danny has recorded these songs in a delightfully entertaining album called "Mommy, Gimme A Drinka Water" (Capitol T-937), in which

THE BELL-BOX OF MY HEART

from
"CROSSED WIRES"
The Musical based on
"The Manhattan Telephone Directory"

Ring-a-ling-ling-ling.
Ting-a-ling-ling-ling.
Goes the bell-box of my heart.
But like AAA
And Zzyttenfeld,
I'm afraid we're far apart.

Ting-a-ling-ling-ling.
Ring-a-ling-ling-ling.
Our souls can't get connected.
You must think my love
Is a slug, my dear,
The way it's been rejected.

I'm tired of busy heart-lines.
I'm tired of all this cryin'.
Say that you love me ten times,
Or even say it nie-yin!

You funny little QUentin 6-0842,
Can't you see that PLaza 3 loves Y-O-U?

You **Lv** for **Other Arms** at 5:02!
Oh, your lips say **Central Standard**

Then I **Ar** at **Other Arms** at 8:08,
To find out where my faithless love can be.
So you **Lv** for **Greener Fields** at 7:08!
Oh, your lips say **Central Standard**,
But your heart's on **E.S.T.**

Some day you'll find that you can never **Lv** me.
And **Ar**, too late, at the fact that I'm terrific.
Though your lips and heart may be

My love, you'll learn, will then be on **Pacific**

You melt my heart (**AS**, *hearte*), once stone.
You're swell (not *bulge*.

You're oke (*colloq.*).

But why waste time describing words.
When both our hearts are light as birds?
Love must be our creed, our badge.

THAT OLD GOOD

COOK BOOK

(A Song of Faith)
from
"COLD POTATØES"
The Musical based on
"Mother Murphy's Cook Book"

When your sinnin' soul's a hung'r in',
And for food-of-love doth cry,
Get out that old Good Cook Book
And bake a Humble Pie!

If your heart is burpin' hatred,
Till you feel you wanna die,
Open your Good Cook Book, friend,
And bake a Humble Pie!

A pinch of baby's kisses,
A dash of Christmas joy,
Sprinkle with the freckles
Of a wide-eyed country boy.
Now add a cup of whine from
A friendly, shaggy pup.
Then grab a hunk of bread and sop
The whole kaboodle up!

When the Master Chef doth call you
To that Kitchen in the Sky,
Side-by-side you'll stand a-stirrin',
With that trusty Book nearby,
And you and He, forever,
Will bake a great big Humble Pie!

SAVIN' MY LOVE

from
"LOVE IN A SILO"
The Musical based on
"The Farmer's Almanac"

I'm savin' my love
For a nice rainy day.
Like the 18th of March,
Or the 7th of May.

That show'r should be fine
On the 3rd of July.
Or else, dear, let's give
August 7th a try.

May I kiss you, my darlin',
Some night 'neath the moon?
Perhaps the 3rd Quarter
On the 19th of June?
Or if you insist
On a moon that is bright,
Let's make it March 3rd,
It'll be Full that night.

We will loll on the sand,
And make love by sea-side,
But before 8:00, or else . . .
We'll go out with the tide!

YOU WILL

from
"TOO MUCH CHICKEN"
The Musical based on
"The Army Manual"

You will gaze into my eyes
(U.S. M-1-903, blue).
You will kiss my tender lips
(G.I., Mouth-Operated, two).

You will strike an azimuth.
My nomenclature you will chart.
You will say that you love me
And reassemble my stripped heart.

You will dream of me tonight,
At 0300, you'll awake.
You will see my face before you
And with love your heart will quake.

You will whisper soft and tenderly,
"I love you, Zinnzer, Sidney D. -

Izzy! - We're running over! Cut ½ minute from act 2!

Few home craftsmen can afford all the power tools they need. Several years ago, a manufacturer found that by combining *two* power tools, he could sell them cheaper. Other manufacturers were quick to hop on the bandwagon, and they started getting fancier and fancier by combining as many tools as they could manage. As each new tool was added, new problems arose. But brilliant and costly engineering came through. And so, today, we have the ingenious SMITHSHOP. This machine is so clever, it leaves every home-craftsman spellbound when he sees it. In fact, he can't even resist *buying* it! To be sure, single-purpose power tools are still the easiest to use, but the dazzling SMITHSHOP makes the craftsman *forget* this. It even makes him forget that it's *cheaper* to buy them power tools *separately* now!

Trouble is, most home craftsmen aren't versatile enough to use it. Sometimes it takes years and years of practice.

MOCK POISON IVY

Mock Poison Ivy and Real Poison Ivy are alike in appearance but not in their effect. To test for Mock Poison Ivy, rub it on an unimportant part of your body. If painful swelling occurs almost immediately, then it is indeed Mock Poison Ivy, as swelling from Real Poison Ivy takes much longer. Follow treatment suggested in most First-Aid books for Real Poison Ivy, although it has been proven ineffective in the majority of cases.

THE VINY POISON QUILLSNAPPER

The Viny Poison Quillsnapper is generally very hard to see, and even harder to find. It winds itself high among the branches of trees in thickly-forested areas. To locate this dangerous vine, simply fashion a long stick and poke it high into the dark foliage overhead. If the pesky plant is there, it will suddenly send down a shower of needle-like quills. As the poison from these quills is usually fatal, once you locate the Viny Quillsnapper, it would be wise not to make camp beneath it, but look for a clearing or open field elsewhere, as any undue prodding is enough to cause it to release its quills.

actually carry deadly venom for the unwary. With Fall coming on, as a public service, MAD now offers this illustrated guide to some of the more common dangers found in our forests, so hunters may easily recognize and avoid them.

DANGEROUS ANIMALS

THE FRIENDLY PIRANHAMOUSE

This tiny animal looks just like an ordinary fieldmouse. To identify him, you must first catch him, which is not easy. Once caught, his armpits will reveal two red beautymarks. Extreme caution should be taken not to harm (or even offend) the Friendly Piranhamouse. Angered, he becomes a ferocious maneater whose distress call summons an army of his colleagues. Such an army has been known to strip a human body in less than 12 seconds.

Ordinary Fieldmouse Friendly Piranhamouse

THE DORMANT ROCKADILLO

Truly Nature's finest camouflage job, the Dormant Rockadillo derives its name from the Armadillo family it belongs to, and the rock-like shell it wears. Many people have come dangerously close to Rockadillos without knowing it. If you suspect a rock of being one, simply lift it up and look on the underside. If you find four tiny feet and a curled up tail, with a swiftly-snapping head, you've got a real one! To remove, build a small fire and heat him up till he releases his grip. The reason he is called "Dormant" is because he sleeps constantly, and only awakens to strike when he has been disturbed.

VENOMOUS INSECTS

THE GRAY POISON-SPIT SPIDER

This otherwise ordinary looking spider is an extremely dangerous pest. The only way you can tell him from the thousand or so common spiders is to flip the little devil over on his back for a look at his belly-button. If the belly-button is a bright orange, you can be sure it's a Gray Poison-Spitter. But be careful! This eight-legged demon only spits poison when he is flipped over on his back.

Common Spider

THE VENOMOUS STING-FLY

There are two major differences between the common House Fly, and the Venomous Sting-Fly. One: The Sting-Fly is very easy to catch, while the House Fly is not. And two: The Sting-Fly bites when caught, while the House Fly does not. The bite causes instant paralysis, which subsides in about 48 hours, after which full recovery follows, with only occasional attacks of nausea and high fever.
